Phone: +82 (10) 3221-1626
Email: info@epik.uz

Who We Are:

- Epik.uz is a forward-thinking IT company with a passion for innovation.

- Established with a vision to reshape the IT landscape, we're committed to excellence.

What We Do:

- We offer a comprehensive range of IT services tailored to your business needs.

- Our expertise spans from software development and IT consulting to cloud solutions and more.

About Us

At Epik.uz, We Transform Possibilities into Reality

Our Strategies

- **Outsourcing**: We're revolutionizing IT service delivery, aiming to be a global leader.

- **Staff Augmentation**: Our goal is to provide on-demand IT talent worldwide.

- **Startup Development**: We're nurturing innovation through our ventures and services.

- **Global Partnerships**: Collaborating with IT firms worldwide to expand our reach in Australia.

Strategy 1 - Outsourcing

Outsourcing

What needs to be done:

1.Market Research and Strategy

- Identify the specific outsourcing services you want to offer (e.g., software development, customer support, Mobile Development, etc.).

- Research our target market and competition to determine demand and pricing.

- Develop a clear business strategy, including competitive advantage.

2.Legal and Regulatory Considerations

- Register your IT company and comply with all legal requirements and regulations.

- Set up appropriate contracts, including service level agreements (SLAs), non-disclosure agreements (NDAs), and any other necessary legal documents.

Outsourcing

What needs to be done:

3.Client Acquisition and Sales

- Develop a sales and marketing strategy to acquire clients.

- Build a strong online presence through a website and social media.

- Attend industry conferences and networking events.

4.Staffing and Recruitment

- Develop a recruitment process.

- Begin hiring skilled professionals.

- Develop an initial training program.

Strategy 2- Staff Augmentation

Staff Augmentation

Staff augmentation is a business strategy used by organizations to temporarily supplement their in-house workforce with external talent on a contract basis. This strategy is often employed in industries where there is a need for specialized skills or expertise to complete projects or address short-term demands.

What needs to be done:

1.Market Research and Niche Identification

- Conduct thorough market research
- Identify high-demand niches
- Analyze competitors and market gaps
- Hard to find competitors

2.Networking and Partnerships

- Strategic partnerships
- Industry events and conferences
- Connecting with potential clients and partners

Staff Augmentation

What needs to be done:

3.Pricing Strategy

- Competitive pricing strategy
- Different pricing models
- Consider client budgets and value provided

4.Talent Management

- Ongoing training and development
- Performance evaluation and recognition
- Ensuring talent satisfaction

Strategy 3- Startup Development

Startup Development

Path 1: Developing Our Own Startups

- Identify emerging market opportunities.

- Cultivate a culture of innovation within our organization.

- Provide resources, mentorship, and funding to startups.

- Measure success by the impact and profitability of our ventures.

Path 2: Services for Startups and Entrepreneurs

- Offer tailored consulting and development services.

- Forge partnerships with startup incubators and accelerators.

- Build a reputation as the go-to IT partner for startups.

- Support the growth and success of our clients.

Strategy 4-
Partnerships with Other IT Companies

Partnerships with Other IT Companies

To collaborate with global IT firms and jointly deliver world-class IT services in Australia.

Global Partnerships - What's in it for Us?

Access to Ready Products and Expertise

- Collaborating with international partners grants us access to their ready-made IT solutions.

- We can tap into their specialized expertise, gaining insights into global best practices and emerging technologies.

Enhancing Our Company Image

- Global partnerships position Epik.uz as a forward-thinking, internationally recognized IT company.

- It strengthens our credibility and reputation, instilling trust in our clients and stakeholders.

Thank You
